SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), codified at 42 U.S.C. § 4001, *et seq.*, requires all flood prone communities throughout the country to apply for participation in the NFIP one year after their flood prone status is identified or submit to the prohibition of certain types of federal and federally-related financial assistance for use in their floodplains. 44 CFR 59.2 authorizes previously unavailable flood insurance protection to property owners in flood-prone areas and identifies the information that communities are required to submit to FEMA for application into the NFIP. 44 CFR 59.22 and 59.24 identifies the information a community is required to submit to FEMA for continued participation in the program.

This collection has been updated to account for the burden hours associated with the applicant's time to collect information as part of the community development permit

process. To qualify for the NFIP, a participating community must adopt certain minimum standards in accordance with FEMA's regulations at 44 CFR 60.3, 60.4, and 60.5. To verify whether communities maintain such standards, the NFIP requires participating communities to retain documentation on development taking place in the flood hazard areas within the community. See 44 CFR 59.22. Such information will be made available to FEMA upon request. This information assists FEMA in evaluating the effectiveness of a community's floodplain management program and participating property owners' eligibility for flood insurance. In the past the NFIP application did not account for burden hours associated with this collection of information.

The "Application for Participation in the NFIP" and the "NFIP and the Community Development Permit Process" are separate actions documented under the same collection
